EDUCATION AND TRAINING

-
- 2023 – present Postdoctoral Fellow, Environmental Health**
Harvard T.H. Chan School of Public Health, Boston, MA
NIH/NIEHS K99/R00 Pathway to Independence Awardee
Mentor: Marc Weisskopf, PhD, ScD
- 2019 – 2023 Doctor of Philosophy (PhD), Environmental Health and Engineering**
Johns Hopkins Bloomberg School of Public Health, Baltimore, MD
Exposure Science and Environmental Epidemiology track
- 2018 – 2019 Master of Health Science (MHS), Environmental Health and Engineering**
Johns Hopkins Bloomberg School of Public Health, Baltimore, MD
Specialization in Environmental Epidemiology
Certificate in Risk Sciences and Public Policy
- 2014 – 2018 Bachelor of Arts (BA), Public Health Studies**
Johns Hopkins University, Krieger School of Arts and Sciences, Baltimore, MD

RESEARCH SUPPORT

Current:

NIH/NIEHS K99/R00 Pathway to Independence Award (K99ES038596)

Project Period: July 1, 2026 – June 30, 2028

Project Title: Early Life Lead Exposure and Later Life Cognitive Function: Biological and Psychosocial Pathways

Role: Principal Investigator

Completed:

NIOSH ERC Pilot Project Research Training Award

Project Period: 06/2021 – 06/2023

Project Title: Characterizing Chronic Metal Exposure in the US Gulf States: Qualification of a Toenail Biomarker and Implications for Neurobehavioral Health

Role: Principal Investigator

JHU 21st Century Cities Award for Doctoral Research on Urban Issues

Project Period: 06/2021 - 06/2022

Project Title: Characterizing Chronic Metal Exposure and Implications for Neurobehavioral Health in the US Gulf States

Role: Principal Investigator

JHU Urban Health Institute Small Grant Award

Project Period: 01/2017 – 01/2018

Project Title: Central Baltimore Community Health Strategy

Role: Principal Investigator

SELECTED MEDIA AND RESEARCH HIGHLIGHTS

Prenatal lead exposure associated with later-life cognitive function

- *Harvard T.H. Chan School of Public Health News*
- *American Academy of Neurology Press Release*
- *Medscape*

Prenatal lead exposure linked with increased risk of adult depression

- *Harvard T.H. Chan School of Public Health News*
- *Medscape*

Childhood residence near Coldwater Creek associated with later-life cancer risk

- *Harvard T.H. Chan School of Public Health News*
- *U.S. News & World Report*
- *Yahoo News*

TEACHING

Instructor of record

Primary Instructor, *Johns Hopkins University* “Urban Health: Global Perspectives for Sustainable Development” (AS.280.460) Fall 2021, Fall 2022

Guest Lectures

“*Chemical Hazards*” in “Environmental Studies Capstone”, *Brandeis University, Waltham, MA*. 2024

“*Gravimetric PM Monitoring*” in “Industrial Hygiene Laboratory” (182.614.01) *Johns Hopkins Bloomberg School of Public Health, Baltimore, MD*. 2021, 2022

“*Exposure Assessment*” in “Environmental Health” (180.601.61), *Johns Hopkins Bloomberg School of Public Health, Baltimore, MD*. 2020, 2021, 2022

Teaching Assistantships

Section Leader, *Johns Hopkins University* “Introduction to Public Health” (AS.280.101) Fall 2020, 2021, Fall 2022

Teaching Assistant, *Johns Hopkins Bloomberg School of Public Health* “The Built Environment: Influences and Challenges to Improving Population Health” (180.625.01) Summer 2020, 2021, 2022

Teaching Assistant, *Johns Hopkins University* “Environment and Your Health” (AS.280.335) Fall 2020, 2021, Fall 2022

Teaching Assistant, *Johns Hopkins Bloomberg School of Public Health* “Environmental Health” (180.601.01) Spring 2021

Teaching Assistant, *Johns Hopkins Bloomberg School of Public Health* “Community Driven Epidemiology and Environmental Justice” (180.625.01) Fall 2020

Teaching Assistant, *Johns Hopkins Bloomberg School of Public Health* “Methods in Quantitative Health Risk Assessment” (317.605.81) Spring 2019

RESEARCH MENTORSHIP

PhD students

Monique Slowly, Population Health Sciences program – Harvard School of Public Health (2025 – present)

Marwa Osman, Biological Science in Public Health program – Harvard School of Public Health (2024 – present)

Master’s students

Esther Sun, MS in Environmental Health – Harvard School of Public Health (2025 – present)

Hanyu Liu, MPH in Epidemiology – Harvard School of Public Health (2025 – present)

Undergraduate students

Arianna Kales – Boston College, RA at Harvard School of Public Health (2024 – present)

Aghader Yassen – Harvard College, RA at Harvard School of Public Health (2026– present)

Isabella Chavarro – William and Mary, RA at Harvard School of Public Health (2024 – present)

Kevin Han – RA at Johns Hopkins University (2021 – 2023)

HONORS AND AWARDS

- 2026 NIH/NIEHS Pathway to Independence Award (K99/R00)
- 2025 Environmental Health Values Award, Harvard T.H. Chan School of Public Health
- 2023 Gordis Teaching Fellowship Award, Johns Hopkins University
- 2022 Millard Bass Research Fund Scholar, Johns Hopkins Bloomberg School of Public Health
- 2022 ISES Conference Award, International Society of Exposure Science
- 2022 Jane Warren Trainee Conference Award, Health Effects Institute
- 2022 Gordis Teaching Fellowship Award, Johns Hopkins University
- 2021 ISES Conference Award, International Society of Exposure Science
- 2019 Delta Omega, Alpha Chapter, Johns Hopkins Bloomberg School of Public Health
- 2018 Bloomberg Centennial Scholar, Johns Hopkins Bloomberg School of Public Health
- 2018 University Honors, Johns Hopkins University

PRESENTATIONS

(*Indicates primary presenter)

Invited Talks

1. **Lin JJY***, Weisskopf MG, The Saint Louis Baby Tooth - Later Life Health Study (SLBT): Early Life Exposures, Critical Windows, and Long-Term Health. Invited symposium presentation, *Decoding dementia: Environmental risk factors and mechanisms throughout the lifespan*, International Society of Environmental Epidemiology, North America Chapter Meeting, Baltimore Maryland. 2026
2. **Lin JJY***. Prenatal and Early Postnatal Lead Exposure, Sensitive Periods, and Later Adult Mental Health. Invited oral presentation, Harvard NIEHS Center for Environmental Health Research Retreat, Harvard T.H. Chan School of Public Health, Boston, MA. 2025.

Scientific Meetings

Oral Presentations

1. **Lin JJY***, Leung M, Mittleman M, McAlaine K, Punshon T, Jackson B et al. Early-Life Lead Exposure and Adult Hypertension in the St. Louis Baby Tooth–Later Life Health Study. Flash talk, International Society of Environmental Epidemiology, Annual Meeting, Munich Germany. 2026
2. **Lin JJY***, Hickman R, Farmer J, Leung M, Tang IW, Punshon T, Jackson BP, et al. Prenatal and Early Postnatal Lead Exposure, Sensitive Periods, and Later Adult Mental Health. Presented at the Annual Meeting of the International Society of Environmental Epidemiology, Atlanta Georgia. 2025
3. **Lin JJY***, Hickman R, Tang IW, Punshon T, Jackson BP, Bidlack FB, et al. Early life lead exposure associated with higher BMI in late adulthood. Presented at the Annual Meeting of the International Society of Environmental Epidemiology, Santiago, Chile. 2024
4. **Lin JJY***, Werder EJ, Lawrence KG, Braxton Jackson W, Sandler DP, et al. Residential Proximity to Metal-Emitting Industries and Toenail Metal Concentration in the US Gulf States. Presented at the Annual Meeting of the International Society of Environmental Epidemiology, North American Chapter Meeting, Corvallis, Oregon, USA. 2023
5. **Lin JJY***, Kuiper JR, Dickerson AS, Buckley JP, Volk HE, Rohlman DS, et al. Associations of a toenail metal mixture with attention and memory in the Gulf long-term follow-up (GuLF) study. Presented at the Annual Meeting of the International Society of Environmental Epidemiology, North American Chapter Meeting, Corvallis, Oregon, USA. 2023
6. **Lin JJY***, Koffman L, Tehrani M, Chen R, Sandler D, Lawrence K, et al. Reliability of low-mass toenail samples as biomarkers of chronic metal exposure. Presented at the Annual Meeting of the International Society of Exposure Science, Lisbon, Portugal. 2022

Posters

1. **Lin JJY***, Koffman L, Tehrani M, Chen R, Sandler D, Lawrence K, Jackson WB, Ramachandran G, Engel L, Rule A, Reliability of low-mass toenail samples as biomarkers of chronic metal exposure. Presented at the 34th Annual Meeting of the International Society of Environmental Epidemiology, Athens, Greece. 2022
2. **Lin JJY***, Tehrani M, Chen R, Heaney C, & Rule A, Characterizing Spatiotemporal Variability in Airborne Heavy Metal Concentration: Changes After 18 Years in Baltimore, MD. Presented at the Annual Meeting of The Health Effects Institute, Washington, DC. 2022
3. **Lin JJY***, Rule A, Karion A, Koehler K, & Levy-Zamora M., Evaluation of a Low-cost Methane Sensor for Environmental Monitoring in an Urban Setting. Presented at the Annual Meeting of the International Society of Exposure Science Conference. Virtual Meeting. 2021
4. **Lin JJY***, Tehrani M, Chen R, Heaney C, & Rule A., (2020). Characterizing Spatiotemporal Variability in Airborne Heavy Metal Concentration: Changes After 18 Years in Baltimore, MD. Presented at the Annual Meeting of International Society of Exposure Science Conference. Virtual Meeting. 2020

PROFESSIONAL SERVICE

Peer Reviewer – Scientific Journals

Environmental Health Perspectives, Science of the Total Environment, American Journal of Epidemiology, Journal of Exposure Science and Environmental Epidemiology, Exposure and Health, Environmental Advances, Nicotine and Tobacco Research, Environmental Research, Environmental Science and Pollution Research

Organizer and Co-Chair, Symposium: *Biomonitoring for Environmental Metal Exposures*. International Society for Exposure Science (ISES) Annual Meeting, Chicago, USA. 2024.

Conference Abstract Reviewer

2023, 2024 – International Society for Environmental Epidemiology, conference abstracts for annual meeting

PROFESSIONAL SOCIETIES AND MEMBERSHIPS

2020 – present, International Society for Exposure Science

2021 – present, International Society for Environmental Epidemiology
